PRODUCT CATALOG 2024

LET'S GO THE EXTRA MILE

Welcome to Elvedes, your trusted partner in the world of cycling since 1965. Dedicated to providing premium quality products, we ensure that every bike can be safely brought back to the road. From our base in the Netherlands, we proudly support bicycle manufacturers, wholesalers and retailers all across the globe. In the world of cycling and beyond, Elvedes is **your reliable partner for just-in-time deliveries**. Our well-structured stock-keeping strategy of semi-manufactured goods and our advanced assembly facility allows us to deliver innovative, high-quality solutions tailored to the needs of cycling professionals and enthusiasts alike.

This catalog presents an extensive range of our aftermarket products and **serves as a comprehensive handbook** for selecting the right disc brake pads, bearings, and bottom brackets using Elvedes' product guides.

Wherever in the world you're reading this, thank you for choosing Elvedes as your trusted partner. Our product catalog is a gateway to exploring premium quality products as well as an open invitation to new distribution partners to join us on our journey. With craftsmanship and enthusiasm, **we spread the joy of cycling together**.

HISTORY

On February 8, 1965, Lourens van der Spruijt officially registered Technische Handelsonderneming L. van der Spruijt with the Chamber of Commerce. The company's first invoice was issued the following day, February 9, to the bicycle specialist Staals in Utrecht, marking the beginning of a journey that continues to this day.

In the early years, Lourens supplied products directly to specialty shops, offering a range of moped parts such as sprockets, pistons, buddy seats, and notably, raised handlebars. These extra-high handlebars created a demand for longer cables, and the need for cables expanded beyond the two-wheeler sector into various other industries.

To meet this demand, Lourens established the brand Elvedes, named after the initials of L. van der Spruijt (L-V-D-S), pronounced as "ell-vee-dez".

Around 1977, the company decided to focus exclusively on the assembly and distribution of mechanical control cables, serving both the two-wheeler industry and other sectors. The Elvedes brand expanded its reach to wholesalers and, subsequently, to retailers.

Over the years, Elvedes became a trusted name in the Benelux region and beyond, gaining popularity among cycling enthusiasts and various industries. In 2002, Lourens passed the leadership to his sons, Carl and Peter, who continued to grow the brand. They diversified the product range, transforming Elvedes into a one-stop shop.

60 years after its founding, Elvedes has flourished into a remarkable family business. Its products are now available in the aftermarket worldwide, symbolizing quality, innovation, and reliability.

A LITTLE EXTRA

'Plus' is a word derived from Latin, meaning 'more.' Ever since Elvedes was founded, we have always strived to do a little more. When we introduced high steerers for mopeds in the sixties, the existing moped cables needed extra length. This demand led Elvedes to add more varieties of cables to the range, not only for mopeds and bicycles, but for all kinds of custom purposes.

Over the years, more and more bicycle service parts have been added to our collection. We offer convenient displays for better organization and a more efficient workshop. We have disc brake pads, not just the common types, but also rim brake pads with special compounds that are quieter and more

powerful. Our twist-fit bottom brackets not only provide greater stability for the bearings but are also more durable, as the bearings themselves can be replaced when worn. And much more.

We believe that these smart additions and solutions make life just a little more convenient for mechanics and consumers alike. To draw more attention to these products, we are introducing the Elvedes+ label, which makes them easily recognizable throughout this catalog. The label, along with a single highlighted sentence, explains why each item is such a valuable addition.

ELVEDES+

This label can be found at different items throughout the catalog. It tells you why this particular item is such a big plus.

NICE TO MEET YOU!

This year marks the introduction of your friendly guide throughout our product catalog, Mr. Knows!

At Elvedes we believe in going the extra mile and nothing helps more than having a knowledgeable companion by your side. Mr. Knows is here to walk you through some helpful information with clarity and a personal touch. All throughout this catalog, he'll illustrate some familiar problems and point you to the right Elvedes+ products that will help you solve your puzzle. From highlighting innovative tools that will make some challenging jobs done easier to offering step-by-step guidance on finding the correct item among today's wide variety of shapes and sizes, Mr. Knows is happy to assist you, every step of the way.

DISC BRAKE PADS

HOW OPTIMIZE YOUR BRAKING EXPERIENCE

STEP 1. CHOOSE YOUR COMPOUND

Elvedes offers disc brake pads with 4 different compounds of different hardnesses with each their own perks, distinguished by differently colored backplates. Depending on the type and usage of the bike, below table advises in brake pad choice:

		resin / organic		metal / sintered	
					
		Super soft	Soft	Medium	Hard
	Brake comfort	★ ★ ★ ★ ☆	★ ★ ★ ★ ★	★ ★ ★ ★ ☆	★ ★ ★ ★ ☆
	Noise reducing	★ ★ ★ ★ ★	★ ★ ★ ★ ☆	★ ★ ★ ☆ ☆	★ ★ ★ ☆ ☆
	Powerful	★ ★ ★ ☆ ☆	★ ★ ★ ★ ☆	★ ★ ★ ★ ★	★ ★ ★ ★ ☆
	Wear resistant	★ ★ ☆ ☆ ☆	★ ★ ★ ☆ ☆	★ ★ ★ ★ ☆	★ ★ ★ ★ ★
	Heat resistant	★ ★ ★ ☆ ☆	★ ★ ★ ☆ ☆	★ ★ ★ ★ ☆	★ ★ ★ ★ ★

STEP 2. CHECK YOUR HARDWARE

There are many factors that could influence the braking performance.

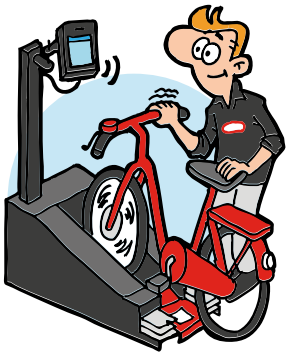

Make sure that:

- the tyres are inflated to manufacturer specification
- the wheelhubs are free of play
- the system is free of leaks
- the rotors are well tightened
- the rotors are undamaged
- the rotors are cleaned with disc cleaner
- the caliper pistons are fully retracted
- the calipers are aligned and well tightened
- the adapters are well tightened

STEP 3. BED IN YOUR BRAKE PADS

Bedding in is the most essential step in brake pad replacement, improving stopping power, expanding life span and reducing (uneven) wear and noise.

To professionally bed in your brakes effectively and efficiently, use the Elvedes Disc Brake Optimizer (see page 74).

PACKAGING OPTIONS

XXXX - CARD

All disc brake pads can be ordered per card, containing 1 pair.

Necessary pins and clips included with all types of disc brake pads on card.
Fits Discovery display (page 81)

XXXX - BOX25

Selected disc brake pads can be ordered per box, containing 25 pairs.

Fits Padfinder display (page 80)

XXXX - BOX

Selected disc brake pads can be ordered per box, containing 10 pairs.

Fits Padfinder display (page 80)

XXXX - BOX50

Selected disc brake pads can be ordered per box, containing 50 pairs.

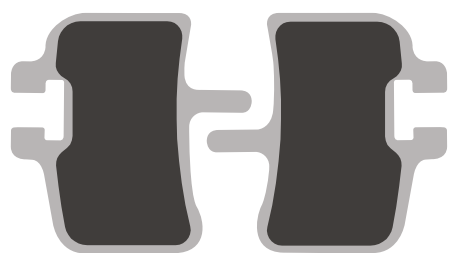

Fits Caddy display (page 79)

DISC BRAKE ROTORS

ROTORS IN ORIGINAL THICKNESS

For the original brake feeling.

Different manufacturers offer rotors with different thicknesses, depending on application of bike they are used on, which means that brake calipers also come in different widths to accommodate them well. That in turn means it's essential to replace a worn or damaged rotor with a new rotor of the same original thickness to ensure proper fit and performance. Each brand typically provides a recommend wear limit at which a rotor should be replaced.

For Elvedes rotors, replacement is advised when they are worn down by 0.2 mm from their original thickness.

BRAND	MODELS	THICKNESS	WEAR LIMIT
Campagnolo	All models	1.8 mm	1.6 mm
Formula	FD791xxxxx, FD792032xx	1.8 mm	1.7 mm
	FD792031xx, FD792201xx	2.3 mm	2.0 mm
Hayes	D-series	2.0 mm	1.7 mm
	L-series, V-series	1.8 mm	1.5 mm
Hope	Fixed rotors ≥ 180 mm	2.3 mm	1.5 mm
	Other models	1.8 mm	1.5 mm
Magura	MDR-A	1.8 mm	1.6 mm
	MDR-C, MDR-P, MDR-S 2.0, Storm	2.0 mm	1.8 mm
Shimano	All models	1.8 mm	1.5 mm
SRAM	Centerline 220 mm, HS2	2.0 mm	1.7 mm
	Other models	1.8 mm	1.5 mm
Tektro	TR-17, 45, 47E, 54	2.3 mm	1.9 mm
	Other models	1.8 mm	1.5 mm
TRP	RC04E, RS01E, RS05E, TR45	2.3 mm	1.9 mm
	Other models	1.8 mm	1.5 mm

02 CABLE

INNER CABLE

19 stands - Regular

19 strands slick - Extra smooth

VOLUME BOX

The easy pull system ensures the inner cables can be easily taken out of the box without getting tangled.

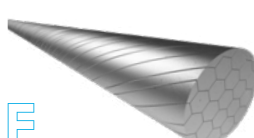

49 (7x7) strands - Extra flexible

49 (7x7) strands slick - Extra flexible, extra smooth

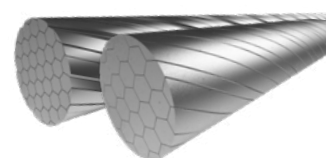

31 strands slick - Medium flexible, extra smooth

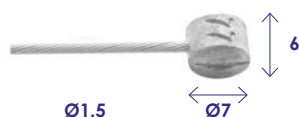

INNER CABLES

Flexible, extra smooth inner cables (D,E) are ideal for easily running through an outer cable with a lot of bends.

OUTER CABLE

VOLUME BOX

All Elvedes outer cables have MoS2 enriched liner for lower friction and higher performance.

The outer cable volume boxes come with an easy pull reel made of 100% recycled and 100% recyclable plastic.

The boxes are also equipped with a unique GripClip, which prevents the outer cable from slipping back into the box after cutting.

The cable type is indicated by the letter A, B, C or D

EXTENDING & REPAIRING

ORIGINAL BRAND HOSE EXTENSION & REPAIR KIT

Extend original brand hydro hoses with fitting kits per brand. Save a lot of time by avoiding internal cable guiding by easily extending your hose to the desired length.

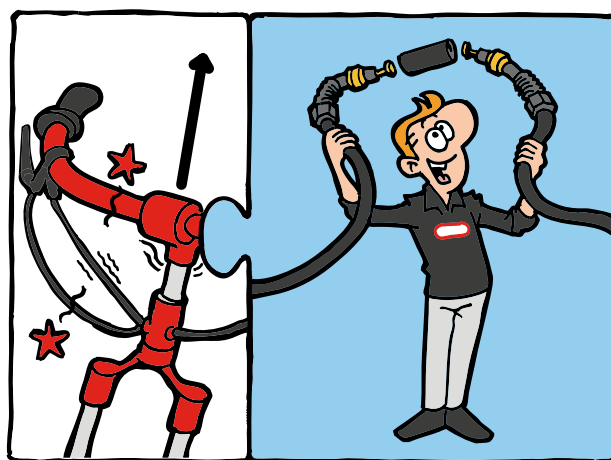

ELV2020240

6 pcs extension nipples
12 pcs compression bolts 5 mm
Fits any original 5 mm hose
Use with compatible fittings

ELV2024087

6 pcs extension nipples
12 pcs compression bolts 5.5 mm
Fits any original 5.5 mm hose
Use with compatible fittings

HYDRO COMPONENTS

VOLUME BOX

Elvedes hydro hose is reinforced with a braided housing and has a PVDF liner, which makes it suitable for both mineral oil and DOT fluid. The hydro hose volume boxes come with an easy pull reel made of 100% recycled and 100% recyclable plastic. The boxes are also equipped with a unique GripClip, which prevents the hose from slipping back into the box after cutting.

HEADSET BEARING

ASSORTMENT BOX HEADSET BEARINGS

2019096

Assortment box high precision headset bearings

Contains **2 pcs** of:

2017134	2017140	2019049
2017135	2017141	2019050
2017136	2017142	2019051
2017137	2017143	2019052
2017138	2017246	2019053
2017139	2017247	

Contains **10 pcs** micro spacers

Refill per piece

PACKAGING OPTIONS

XXXXXXX

All bearings can be ordered per piece.

XXXXXXX - BOX10

Selected bearings can be ordered per box, containing 10 pcs.

 2017134 2017134-BOX10 1½" 45° × 45° Ø40 × Ø52 × 7	 2017135 2017135-BOX10 1⅛" 36° × 45° Ø30.2 × Ø41 × 6.5	 2017136 1⅛" 36° × 36° Ø30.15 × Ø41.5 × 6.5

PULLEY WHEELS

PULLEY WHEELS

All pulley wheel bearings are produced complying with ABEC 3 or ABEC 5. All pulley wheel bearings are provided with extra grease for higher durability and performance.

2 × 10 TEETH

CP2017231 1 set

ABEC 3 with extra grease
Steel sealed bearing

Including spacers compatible with:

- A - Shimano 8 speed
- B - Shimano 7 speed, Campagnolo 8 speed
- C - Campagnolo 9 / 10 speed
- D - SRAM (one hole upper pulley) 9.0SL ('98) / 9.0 ('97 - '98) / 7.0 ('97 - '98) / 5.0 ('98 - '99)"

2 × 11 TEETH

CP2017086 1 set

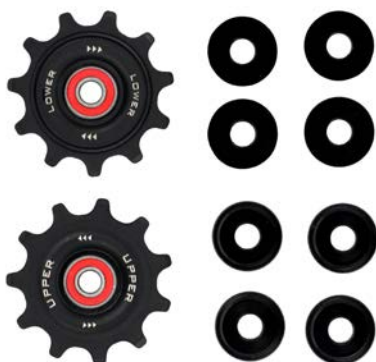

2017086-BOX 10 sets

2017086-BOX25 25 sets

ABEC 3 with extra grease
Steel sealed bearing

Including spacers compatible with:

- A - Shimano 8 / 9 / 10 / 11 speed & 10 speed GRX
- B - Shimano 7 speed, Campagnolo 8 speed
- C - Campagnolo 9 / 10 speed
- D - SRAM 7.0 / 9.0 ('97 - '99)"

2 × 11 TEETH

CP2023086 1 set

ABEC 3 with extra grease

Stainless sealed bearing

Compatible with Shimano 12 speed

11 + 13 TEETH

2022004 1 set

ABEC 5 with extra grease

Stainless sealed bearing

Compatible with:

Shimano 11 speed GRX

RD-RX810-GS

RD-RX812-GS

RD-RX815-GS

RD-RX817-GS

2 × 11 TEETH

CP2017100 1 set
ABEC 5 with extra grease
Stainless sealed bearing

Compatible with:
Shimano 9 / 10 / 11 speed & 10 speed GRX
SRAM X0 / X9 / X7 9 speed MTB > 2011
SRAM X0 / X9 / X7 10 speed MTB
SRAM Apex / Rival / Force 10 speed road
(bushing included)
Campagnolo 11 speed

2 × 13 TEETH

CP2019103 1 set
ABEC 5 with extra grease
Stainless sealed bearing

Compatible with:
Shimano RD-M9100 / M8100 / M7100

2 × 12 TEETH

CP2017101 1 set
ABEC 5 with extra grease
Narrow / wide
Stainless sealed bearing

Compatible with:
SRAM X01 / XX1 / X1 GX 1×11 speed
SRAM Rival 1 / Force 1 1×11 speed

12 + 14 TEETH

CP2017102 1 set
ABEC 5 with extra grease
Narrow / wide
Stainless sealed bearing

Compatible with:
SRAM Eagle XX1 / X01 / NX / SX / GX 1×12 speed
and 2×11 speed MTB

2 × 12 TEETH

2020097 1 set
ABEC 5 with extra grease
Narrow / wide
Ceramic hybrid bearing

Compatible with:
SRAM Force / Red eTap AXS

12 + 14 TEETH

2020098 1 set
ABEC 5 with extra grease
Narrow / wide
Ceramic hybrid bearing

Upgrade for:
SRAM Force / Red eTap AXS

BOTTOM BRACKET GUIDE

A bottom bracket shell can be threaded or non-threaded, called thread fit and press fit respectively. It is important to know which type of shell you're working with and what the shell diameter and width are, in order to select a fitting bottom bracket.

The most common thread types in thread fit shells are BSA (English thread), ITA (Italian thread) and T47 (M47×1). A thread type bottom bracket is interlocked directly with the shell. Press fit shells come in various diameters and widths, most commonly PF30 (Ø46 mm), BB30 (Ø42 mm) and BB86/92 (Ø41 mm). Press fit bottom brackets are pressed into the shell using a press-in tool. Another dimension you need to know in order

to select a fitting bottom bracket is the spindle diameter. Different brands and models can vary widely, from Ø30 mm to tapered versions like Praxis (Ø30 mm – Ø28 mm). Differences between brands can also be as little as a few hundredths of millimeters. Elvedes offers a basic range of bottom brackets, which can be easily adapted to specific types of spindles such as FSA Mega Exo and SRAM / Truvativ GXP using specific bearing caps or reducer kits.

Knowing below details and dimensions, the guide on pages 57 to 59 can be used to select the perfectly fitting bottom bracket.

LOW MAINTENANCE COSTS

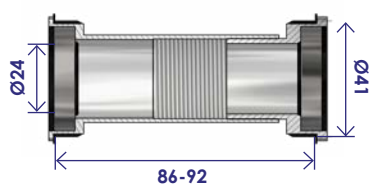

Only the bearings can be replaced for service maintenance, while the bracket stays in place.

PERFECTLY IN LINE

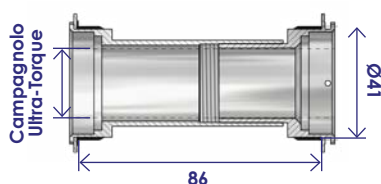

The threaded interlocking cups allow the spindle to run freely without squeaking and creaking.

DISC BRAKE OPTIMIZER

DISC BRAKE OPTIMIZER

2025050

The professional bedding machine

A smart choice for effectively bedding disc brake pads, developed and made in the Netherlands. The touchscreen on working height easily guides the operator through well-balanced recipes for each compound, instructing when, how hard and how long to brake, measuring resistance, braking time and cooling time.

The machine automatically adjusts to the correct braking speed regardless of wheel size.

Each recipe starts with a first phase of soft braking for burnishing the pads, maximizing the contact surface. The second phase of hard braking lays a film of compound onto the rotor, maximizing friction.

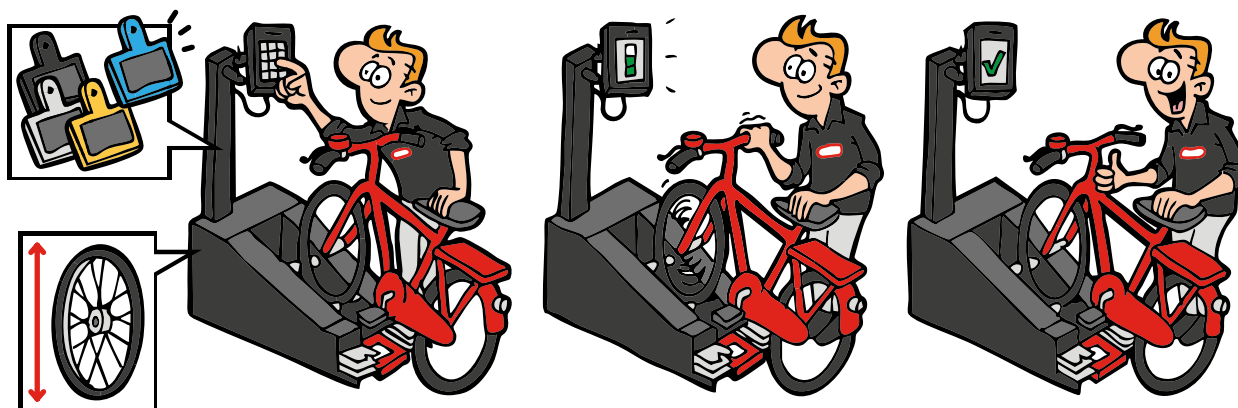

The DISC BRAKE OPTIMIZER assures optimal braking results over and over again.

Dimensions

88 × 39 × 129 cm

WORKSHOP STATION

WORKSHOP STATION

2025007

Compact all-in-one mobile display frame

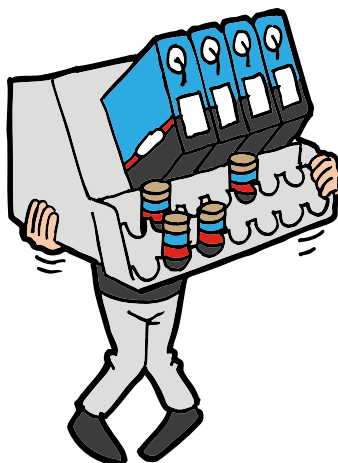

Dimensions

53 × 150 × 56 cm

Evolved from the TRANSIT mobile display frame, the WORKSHOP STATION is a more compact version of its predecessor, but is able to hold an extra BOXER, making it possible to expand the collection with a Hydro Service Pack (page 78).

This facilitates you to quickly and easily find all components you need for replacing hoses, cables and brake parts.

No displays included.

HYDRO SERVICE PACK

HYDRO SERVICE PACK

2024178

Extensive combo pack containing hoses and parts according to original recipes for Shimano Magura, Tektro, SRAM and Elvedes.

Dimensions

53 × 36 × 47 cm

Excellent for:

- Extending
- Replacing
- Shortening
- Repairing
- Assembling

Includes:

Free BOXER display containing:

- 10m hose for Elvedes
- 10m hose for Magura
- 10m hose for Shimano BH59
- 10m hose for Shimano BH90
- 10m hose for SRAM
- 10m hose for Tektro 5.0 mm
- 10m hose for Tektro 5.5 mm

Free DOBLO display containing:

ELV2012097	ELV2024069
ELV2024095	ELV2024100
ELV2012098	ELV2024070
